Abstract:

The mission is to facilitate easy management and administration of a hotel with capabilities to do Booking or reservations of the rooms& cancellation of the rooms& cash billing& Total billing& etc. using the automated hotel managementsoftware. One can keep detailed records or info on an unlimitedamount of customers. The system lets the user know which all rooms are available foroccupancy at any point of time. This makes the booking considerably faster. And thus helps the hotel in better management and reduce a lot of paper work aswell as manpower.
